DETAILED ACTION

This office action is a response to the amendment filed on 4/6/2005.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as a process of making a thin film magnetic head includes a magnetic lower core layer, a magnetic upper core layer, a coil layer including processes of forming a first coil extraction layer simultaneously with main electrode layers, the main electrode layers overlapping the electrode layers and extending at the rear of the electrode layers and connecting a second coil extraction layer and a third coil extraction layer comprising the same material as that for the lower core layer onto the first coil extraction layer and connecting a coil center onto the second coil extraction layer during the formation of the coil layer and connecting a coil lead layer onto the third coil extraction layer. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claim 6 is allowed.
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D Kim whose telephone number is 571-272-4565.
